A collection of screws is arranged on a white background. A blue rectangular overlay is positioned in the upper right quadrant, containing the word "SCREW" in white, bold, uppercase letters. The screws are scattered across the frame, with some showing their heads and others showing their threaded shafts. The screws vary in length and are oriented in different directions.

A close-up, black and white photograph of a pleated wire mesh material. The mesh is composed of a grid of small, square openings. The material is folded into a series of parallel, overlapping pleats that create a strong sense of depth and texture. The lighting highlights the edges of the pleats and the intricate pattern of the mesh. In the upper left corner, there is a solid blue rectangular area containing the text 'PLEATED WIREMESH' in white, bold, sans-serif capital letters.
